## A FRESH APPROACH TO SLEEP

Fresh, clean sheets. A fresh set of PJs. A fresh, gentle breeze through your bedroom window. There's nothing like having the perfect conditions for getting a great night's sleep. With zComfort, we've blended natural materials with the latest body care technology to create a fresh approach to mattress design.

A fresh night's sleep for a refreshed morning.

## ZONED FOR MAXIMUM SUPPORT

The curve of your back. The shape of your hips. The width of your shoulders. Back sleeper. Side sleeper. Tummy sleeper. No matter your body or sleep habits, zComfort's proprietary layers are zoned to conform to the contours of your body, providing pressure relief, perfect alignment, and allowing you to sleep more naturally.

## WHAT'S IN A MATTRESS

All **zComfort** mattresses offer the following:

**SILVADUR** antimicrobial ion technology delivers long-lasting odor protection by inhibiting the growth of bacteria.

**Natural wool** provides an ideal sleep environment by warming you when it's cold and cooling you when it's warm.

**Memory foam** is posturized to evenly spread pressure along the length of your body, relieving pressure point discomfort.

**Individually pocketed coils** are zoned to support and conform to your body while dampening the movement of your partner.

**zComfortplus** mattresses offer all of the above features, plus...

**Q10** antioxidant is an anti-aging skincare formula that helps protect your skin from damage.

**Cashmere** blend sleep surface offers ultimate luxury and superior temperature regulation.

**3Mesh** is a German engineered, breathable material. Exceptional airflow "supercools" your sleep experience.

## NATURALLY, A BETTER WAY TO SLEEP

Wool is so comfortable and effective that we put it in every Positive Posture mattress. In our search for the best wool quilting available, we found a unique mill that uses rare antique carding machinery to comb wool more thoroughly than modern machines. This specialized approach to combing creates the cleaner, fuller wool found in our mattresses.

The world is rediscovering wool for its remarkable properties including the incredible ability to cool in the heat and warm in the cold. Wool is also hypoallergenic, resistant to bacteria, mold, and mildew, and a natural flame retardant.

Comfortable, natural, renewable, and supporting your best night's sleep. Quite possibly the perfect fiber, we think you'll love how it feels.
